

Support Coordination

You know best what you need and what services to choose

We can be in charge and help you choose and use services when it is hard for you:

If you need support for a lot of different things

If you get support from several different places

If you don't have a family or support persons

If you live far away

If you do not have enough money

If you are unwell

Even when we are in charge we will always include you and your family in making decisions

We will give you one person who will help with everything and make sure all services are good for you
